DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nicole J. Buckner on 14 March 2007.

The application has been amended as follows:

Claims 7 and 8 have been canceled.

Allowable Subject Matter

Claims 1, 2, 4-6, and 9 have been allowed.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art fail to disclose or suggest a semiconductor glaze product comprising a base glaze composition, represented by the Seger formula of basic components as recited in instant claims, a metal oxide composition, which includes tin oxide and antimony oxide. Where in the composition further includes a flux.

The closest prior art is deemed to be Higuchi et al., U.S. Patent 4,262,185 in view of Parmelee, Ceramic Glazes. Higuchi et al. does not disclose or suggest a flux in addition to the base glaze, and tin oxide and antimony oxide components as recited in the instant claims. Applicants persuasively argue that there is no motivation in Higuchi et al. and Parmelee to use B₂O₃ as a flux in addition to SnO₂, Sb₂O₃, and the KNaO-MgO-CaO-Al₂O₃-SiO₂ base glaze. See Applicants' arguments filed 8 February 2007, pages 6-9.

Art Unit: 1755

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
